

Mary, the feminine side of God.

(in any case at least: the feminine face of the Church)

this is how the Bishop magazine „Together Church“ wrote it. Except that She really has lived as the Mother of Jesus, Mary is especially also a symbol that in every time period works different again. Mother Earth (Mary) Father Sun (God). The Fertility. The feminine element in the Creation. The sea carries in different old languages Her name: Mare (lake). The young brave lady. The humble one who is being elevated... If it all has to be taken literal what is written in the Gospel is not so important. It is though all true and truth, and that is what it is about. Even if it would be symbolic language, it is about the truth that is behind it and it being expressed. (Until here the (Bishop magazine) „Together Church“ in this month of October - month of Mary).

In Volendam we were surprised this month with a gift in the form of a Rosary with additional directions for use and a rhyme, which was placed in the letterbox.

First reaction: „Would there be people who worry themselves about my salvation?“ seemed superfluous concern, because with further information it seemed that these rosaries house-to-house were being spread as a special work of love through a couple of women. With that they help Hille Kok, who with this fulfills a special and urgent assignment, that has been dictated to her. She also got dictated a poem that is enclosed with it and goes as follows: (*)

Explanation of Hille Kok:

The World lays largely in the grip of evil powers. Just Put on the tv-news and see how it rants and raves in the world. There is so much meanness, selfishness, baseness and devilishness. The world boils. Despite repetitive appeals to not admit to the evil, many souls do chose more and more the side of the evil and the darkness.

Our Heavenly Mother sees how like this we head for our ruin, Her Mother Heart teares up of sorrow. She can only still beg and cry for us (Her children, where She is crazy about), to bring to reflection.

That expresses itself even in tearing Mary statues in different places on earth. No chance She leaves unused to let penetrate Her warnings and messages.

It is a choice that takes place in the world of the sense. The collective evil and angry thoughts form in the spiritual spheres a kind of dark cloud which surrounds our earth so that the Sun of love and happiness can hardly break through it. Because of our thoughts of love, peace and happiness we can break through the darkness and reach the Light.

A closed circle of positive and loving thoughts must go and surround the earth as a reservoir from which everyone can draw good inspirations from and load up his feelings...

**(*) With MARY in our midst
Everyone learns to PRAY again:
THE ROSARY!
That She asks us.
The salvation for us all.
For the souls who have fallen.**

H.K.

“Amen” Hille Kok

*Volendam
is being
showered
with
Rosaries.*

*It is still
month
of
October-
Rosary
month.*

As long as that is not there one can keep on making laws and security facilities: it all has no use as long as man is inwardly not good, out of his own feeling, that still now is being influenced too much by the evil power.

In the past the meditating has, (whilst the lips mutter the Hail Mary and unconscious take care of: equally-directed breathing power) seemed an effective means. Why would we now in 1988 not give it a try???

Do not think that I know all of this out of myself.

It is all being dictated to me. And it is also being led by the Power who is above us.

Because how do you explain for example that just like that something like that gets going.

That there are for example people who just like that volunteer to help with the spreading; that from places where Mary has appeared thousands of rosaries are being sent to me, which all have laid in the place where Mary has appeared and have been loaded up with a special Blessed strength.

Now that there are only a few communities in Volendam, provided with these rosaries, staggering reactions, already reach me.

Sometimes someone who was on the point of doing something very dramatic and then found the envelop with the rosary on the carpet and timely came to reflection.

Also I am sometimes being called up by brutes who are angry and insulted because this for them „isn't necessary“. Especially those big screamers will later be the most keenest fighters for the good cause.
